#### Why Forecast?

# **Creating a Forecast**

- Establish the cycle menu for the year
- Determine how many servings of beef product will be needed
- Using the calculator determine:
  - How many servings of gr. beef will be needed for the SY?
  - How many pounds of gr. beef will be needed from vendor to meet 75% of the district needs?
- How many cases of finished beef does the order represent?

AMERICAN COMMODITY DISTRIBUTION ASSOCIATION Agriculture - Industry - Government - Community Working Together to Nourish the Nation

- By Manufacturer list the SKU to be purchased for the year
- Using a monthly calendar
  - List the number of cases by SKU to be used by the month
  - Consider vacation days, special menu
    promotions, testing days, graduation events
  - Include all USDA Foods processed, DoD and direct delivery in forecast
  - -Allow for some flexibility
- Plan monthly meeting with vendors/brokers, distributor for review and adjustment
- Purchase what you awarded

#### **Contract management**

#### Monitor and enforce contract for duration of contract
